

We regret that it is the 6th and we just now read this e-mail. We own a car that came with XM radio and love it. We have paid for the service for three years. I cannot believe that anyone wants to take that right away from us. We still love Lisa Badin and the other newscasters at WTOP and even listen to CD's in our car. Does that bother anyone? I vehemently oppose HR 4026. Are you sure that Gene Green is a democrat?
